News from the Classroom

We are off to a great start in 7th grade math! We are half way through our first unit, Numbers and Operations. Students have been working hard on addition, subtraction, multiplication and division with positive and negative integers and rational numbers. We are making great use of our wonderful new math curriculum, GO Math. We complete assignments in our consumable textbooks, our workbooks, and our online platform available through the DCSS portal. We continue to add graphic organizers and study material to our Math Interactive Notebooks. We have set individual achievement goals, and have begun checking off our progress using our GMAS Achievement Rubrics. Our second unit will be Expressions and Equations, and will begin in October.

Quarterly Math Assessments

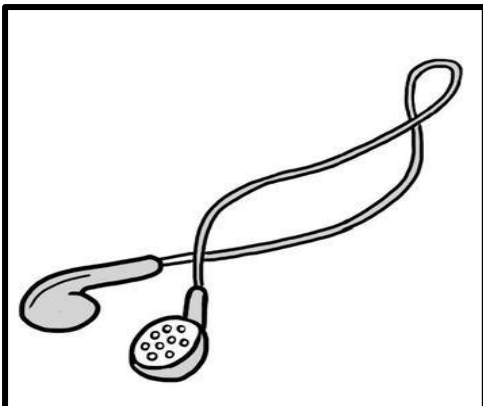

When? Between 9/25/19 and 10/9/19

What Should We Study?

- GO Math Textbook: Modules 1, 2, and 3 Assessment Readiness Pages 32, 56, and 102
- Interactive Notebooks: Adding, Subtracting, Multiplying and Dividing Integers and Rational Numbers, Properties of Addition and Multiplication
- Study Guide assigned one week before assessment

Key Vocabulary for Unit 1

- Integer
- Additive Inverse
- Absolute Value
- Repeating Decimal
- Terminating Decimal
- Rational Number

Earbuds Please!

Does your student have a set of earbuds? Our GO Math Interactive Lessons and our Classworks Interactive Lessons require the use of earbuds. Without them, students miss a lot of instruction. Earbuds are available at the Dollar Tree for only \$1.00 per pair!
